Maintenance Report

October 17, 2018

Submitted by: Lance McLaren

Report:

1. Water Testing:

Test results for Sept and Oct are attached.

2. Flowmeter:

The flowmeter was removed by 9dot on Sept 19 and the excavation filled in by Ron Jardine on Sept 23.

The flagging posts and tape remain in place around the excavation site in front of Schreiber's. Who is responsible for removing these?

3. Shut-off Valves – Kehoe Property:

Shut-off valves on the road easement in front of Cindy Kehoe's property were discovered to be exposed to potential damage due to the easement being use as parking for Fletcher Fries.

On Sept 23, a concrete barrier was placed in front of the valves as protection by Ron Jardine.

4. Jersey/Webb Curbstop:

The curb-stop for the Jersey/Webb property was shut-off and on again, at the request of Kevin Jersey, to accommodate some work on Oct 9, 2018. An invoice for the connection and re-connection fee should be prepared.

Board Action Required:

There is no additional action required from the Board
